KENTUCKY REPUBLICAN PLATFORM.

We are opposed to the free and unlimited col-
lege of slaves, believing that it would involve the
country in financial ruin. We believe in a sound
currency and in the use of both gold and silver for
commodities; provided always that dollars can be
made perfectly equivalent as a dollar in the
other.

We favor a Tariff Law which will open the
markets of the country to our own products
that may be successfully manufactured or
produced in this country, thus insuring good
wages to the laborer and a home market to the
producer; in connection with this we favor
the re-establishment of the Homestead Law.
We believe that such a system will defend our
Government, expedites gradually liquidate all in-
detinable debts, reduces public expenditure and relieves
the rear the undue exactions now prevailing
amongst us. We believe in a sound currency and
financial history of the Democratic party, its
devotion to the old state bank system and solid
tendencies; we offer that the Republican party
can no more safely trust to repudiate the
finances of the country.

We favor an American policy which will pro-
tect Americans and American interests in any
part of the world at all hazards and will sym-
pathize with struggling Republics rather than
aggressive monarchies.

During the first eight months of the
McKinley Law we imported from foreign
countries 1,065,300 dozen eggs. During
the first eight months of the present
Democratic Free-trade Tariff Law we
have imported 2,150,047 dozen. How
do you like that, ye farmers wives of Mason
county?

During the first eight months of the
McKinley Law we imported from foreign
countries 25,240 tons of hay. During
the first eight months of the present
Democratic Free-trade Tariff Law we
have imported 129,705 tons. How
do you like that, ye farmers wives of Mason
County?

SPEAKING in 1842 in the House in
favor of an increased duty on hemp to
keep out foreign hemp and encourage
our Kentucky farmer, JAMES BU-
CHANAN said that the increased import
duty on hemp demonstrated that—

"An additional duty was absolutely
necessary to check its further progress,
unless you wish to give the growers of
the article in Russia an exclusive
monopoly of our market in preference to our
own farmers. The additional duty is
moderate; it is no more than a Protec-
tive duty in favor of our own agricul-
ture."

There was not a word said about
placing duty on agricultural products
for revenue nor for "revenue only."
Quite the reverse.

Your Husband—

Is he not dear to you? Should
you not be careful of his health?

Maybe he is sometimes weak and
down from the effects of over-
work, or worry, or carelessness.

But you need not be alarmed; a
tablespoonful of

Brown's
Iron Blitters

three times a day for a week or two
will make him well and strong.

And this is how it does it: It
purifies and enriches the blood and
gently stimulates the action of the
vital organs, and helps them per-
form their proper offices.

Don't neglect trifling ailments.

Brown's Iron Blitters is pleasant to take,
and has a decided tonic and
constitution. See the crossed red lines
on the wrapper. Our book, "How to
Live a Healthy Year," tells all about
it. Use for 25 cents stamp.

BROWN'S CHEMICAL CO., BALTIMORE, MD.

A CHICKEN is cheap in New York at
50 cents—if you have the 50 cents; and
it is dear in London at 25 cents—if you
haven't got the 25 cents.

At the National Treasury there was
Saturday an excess of expenditures over
receipts of \$478,130.75, making the de-
ficit for August to date \$1,370,029.61,
and the deficit for the fiscal year to date
\$10,585,295.33. The receipts Saturday
were \$1,084,860.23 and the expenditures
\$1,063,000.

There were \$2,350,000, in gold with-
drawn for foreign account, and the Bond
Syndicate is held responsible for it. Possi-
bly the syndicate could not have
prevented the Bank of Montreal from
withdrawing \$1,000,000 for deposit with
its agents in New York, but the rest of
that large sum taken from the Treasury
need not have been exported but the
syndicate reduced its rates of exchange.
As it was the exporters secured a profit
varying from \$1.00 to \$5.00 on each
million withdrawn.

The syndicate is making a large profit
by maintaining the rates of exchange, and
it has some large sum of gold on de-
posit with its correspondents, the Roths-
childs and Morgans in London, it has no
difficulty in meeting these bills when
they reach London.

THE PUDDLERS.

Ten Thousand of Them Will
Have Their Wages Raised.

The Best News in Many Years for the
Employees of the Mills.

The Benefits of This Increase Will Accrue
to at Least Thirty Thousand Finishers—
The Puddlers Will Get an
Advance of 20 Cents a ton.

PITTSBURGH, Aug. 6.—Ten thousand
puddlers will have their wages raised.
Later the benefits will accrue to at
least 30,000 finishers.

The biggest wage advance of years
has been naturally given by the union
puddlers through the action of the
Shenango and Mahoning valley manufacturers.
That district, the Sixth, makes the price for the general
puddlers will get an even greater
advance of 20 cents a ton. They are now
receiving \$4 a ton, which is the base
price for boiling in the amalgamated
steel.

This advance will affect about 3,000
puddlers in the Pittsburgh, or First
district, corresponding to the
work of the puddlers south and east
and everywhere where there is an
organized iron mill.

This advance is the best news the
puddlers have had in a decade. Its
wages are divided into three from \$4 to
\$4.20, a maximum rate of 20 cents
a ton in this district and this
will make cheering news that will be
heralded with joy in thousands of
homes. As the rate goes into effect
Monday an advance of \$1.00 will
be made. All the business houses
and a number of residents will be
elaborately decorated with flags and
bunting.

Killed the Destroyer of His Home.

Mr. STEPHEN K. KY., Aug. 6.—Horace
Reynolds was waylaid and killed near
Jeffersonville, in the southern part of the
state, by two men, who were neighbors.
Both are young men, Reynolds being but 17.
Reynolds was shot in the back and his throat cut from ear
to ear. About two weeks ago Reynolds
ran off with Hawkins' wife, and she
had been threatening vengeance. Hawkins had been threat-
ened and injured.

The list of injured is as follows: Fireman Bennett, Engine company 4,
overcome by heat and driven insane;
Superintendent, William R. Shaw,
a relative of the deceased and next; Jack
Crowley, burned alive in his bed; and
Fireman William Kirby of No. 10, back hurt; deaf and dumb fire-
man on Big Sandy, hands and head
burned.

The loss to the Cincinnati wharf-
boat is \$2,000. The steamer Big Sandy
is a total loss, valued at \$40,000, and owned by the Louisville and
Cincinnati Wharf Company.

The steamer Carrollton is a total
loss, value \$30,000; she being compara-
tively a new boat.

Jack Crowley, clerk on the Carrollton,
lost his neck, hands and side
burned and lost all his clothes on the
boat. He is ashore in a borrowed shirt
and trousers.

MOUNT TACOMA.

Word Received from the Exciting Party
by Carrie Pigott.

SAN FRANCISCO, Aug. 6.—A special
court Tacoma says: "Homing pigeons sent out with mountain climbers return Sunday afternoon with messages from
the summit of Mount Rainier." The
climbers were charged with embezzlement.
H. F. Price, Fred E. Conner, H. L.
Frye, M. B. Atwood and Fred Evans nearly
all experienced mountain climbers, had been
badly frostbitten in attempting to
ascend to the summit of Mt. Rainier.
Messages state the wind is blowing
gale force, the temperature at a point
known as the "Camp of the Clouds"
Love is reported incapable
but Bowser, who has climbed to
the summit repeatedly, had at the
time of message sent up to the
birds (5 o'clock Sunday morning)
slated in crawling to the tip top in order
that Lynn, a local photographer,
might make photographs of the crater
for the purpose of comparing them
with those taken earlier. The birds
see if any changes have taken place
in the summit as the result of reported
eruption.

Five of the Miners Rescued.

LONDON, Aug. 6.—A dispute from
Salt Coats, on the Bay of Ayr, Scotland,
last night between miners and
landowners took all the attention of
the public.

AGE OF THE EARTH.

PROFESSOR GEIKIE THINKS IT MAY BE MORE THAN ONE HUNDRED MILLION YEARS.

Nature. It is more than thirty years since Lord Kelvin pointed out that there must be an ascertainable limit to the antiquity of the earth, and that from the date at that time available the limit could not be fixed at less than twenty or more than 40,000,000 years. He based this calculation on the thermal conductivity of the globe. Afterward returning to the subject, he placed the limit within 100,000,000 years, and still more recently, reviewing the question in the light of the arguments from tidal retardation and the age of the sun's heat, he has brought down the period of the earth's antiquity to about 20,000,000 years. Geologists have not been slow to admit that they were in error in assuming that they had an eternity of past time for the evolution of the earth's history. They have frankly acknowledged the validity of the physical arguments which go to place more or less definite limits to the antiquity of the earth.

In vain have they protested that there must somewhere be a flaw in a line of argument which tends to result so entirely at variance with the strong evidence for a higher antiquity, furnished not only by the geological record, but by the existing races of plants and animals. Scientists have insisted that this evidence is not mere theory or imagination, but is drawn from a multitude of facts which become hopelessly unintelligible unless sufficient time is admitted for the evolution of geological history. They have not been able to disprove the arguments of the physicians, but they have contended that the physicians have simply ignored the geological arguments as of no account in the discussion.

So here the matter has rested for some years, neither giving up nor with no prospect of agreement. Professor Perry, feeling that, after all, the united testimony of geologists and biologists was so decidedly against the latest reduction of time that it was desirable to reconsider the physical argument, has gone over them once more. He now finds that on the assumption that the earth is not homogeneous, as postulated by Lord Kelvin, but possesses a much higher conductivity and thermal capacity in its interior than in its crust, its age may be enormously greater than previous calculations have allowed. The question being sub judice, we must wait until it is settled. But there seems at present every prospect that the physicians will concede not merely the 100,000,000 years with which the geologists would be quite content, but a very much greater extent of time.

BIG PROFITS Small Investments.

Bearish prosperity will make many rich, but nowhere can they make so much with a short time as by successful Speculation in Provisions and Stock.

\$10.00

FOR EACH DOLLAR INVESTED can be made by our

Systematic Plan of Speculation

originated by us. All successful speculators operate on a regular system.

It is a well-known fact that there are thousands of men in all parts of the United States who by trading in stocks and bonds, from \$10,000 to \$100,000 for the man who invests a few thousand dollars, make up to \$100,000 or more by themselves.

It is also well-known that the men who make such large profits comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand the market.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up immensely in a short time.

WRITE FOR CONFIRMING PROOF, also our Manual on successful Speculation and our Daily Market Report, full of money-making pointers. **ALL FREE.** Our Manual explains the trading fully. High interest returns in regard to our trading and stocks.

On Tuesday, August 13th, 1895, the Chesapeake and Ohio Railroad presents a personally conducted excursion to Point Pleasant, W. Va. An expert train composed of elegant coaches and Pullman Sleeping Cars will leave Mayville at 3:30 p.m. and run direct to the Hygeia Hotel at Old Point Comfort, the grand trip rate being only \$1.75 per person. All meals will be served gratis on the special train, but will be good requiring on any regular train, even offered for the man and one which experts say is the best in the country. After arrival, see sea, beach and study the arms Fortress M-uttre or the navy at Gosport Navy Yards cannot afford to miss. Make application before August 10th for sleeping car space through the C. & O. Agent.
